

EES Conference, 2 March 2021

Schedule of events : Morning session

9:00-9:10: Conference introduction

9:10-10:50: Block 1, Masters Thesis Presentation Session 1

Talks will be 15 minutes long, with 5 minutes allotted for questions

9:10	Carly Russell	Do birds got lichens on em?
9:30	Linda Hagberg	Extensive gene flow at late stages of species formation" The hybrid zone of <i>Chorthippus parallelus</i>
9:50	Saoirse McMahon	The adaptive introgression of red colour preference alleles in male <i>Heliconius</i> butterflies
10:10	Lucas Asis	Investigating host plant preference of <i>Heliconius</i> using allele specific expression analysis
10:30	Santhosh Totagera	Electrical synapses in the song system of songbirds

10:50-11:05: 15 Minute break

11:05-12:15: Block 2, IRT2 Poster Session 1

Each poster will have a brief 3-minute introduction, then attendees will be invited into a 50-minute long breakout session for further discussion

11:05	Brief introduction	
11:10	Isabell Naumann	3D models for image-identification in forensics
11:13	Kardelen Özgün Uludag	Who evolves the best sperm?
11:16	Jelena Belojević	Mouth region of camel spiders (<i>Solifugae</i>) - Morphological approach
11:19	Annika Neuhaus	How would you house a blue crane?
11:22	Morgan Oberweiser	Ants vs. Termites: SHAPE analysis of the functional head region in eusocial insects
11:25-12:15	Poster discussion breakout session	

12:15-1:15: 1 hour lunch break

EES Conference, 2 March 2021

Schedule of events : Afternoon session

1:15-2:15: Block 3, IRT2 Poster Session 2

Each poster will have a brief 3-minute introduction, then attendees will be invited into a 50-minute long breakout session for further discussion

1:15	Brief introduction	
1:20	José Borrero Malo	Role of habitat quality in nest-box occupancy, behaviour, and parental provisioning in great and blue tits
1:23	Stefan Dehos	Geometric morphometric analysis of potential hybridisation between cave bears (<i>Ursus spelaeus</i>) and brown bears (<i>Ursus arctos</i>) in the late Pleistocene
1:26	Rosalie Krause	Literature research and establishment of a database concerning Coronavirus prevalence in bats
1:29	Roberto Rebollo Hernandez	The link between primary and secondary metabolism in the acclimation of <i>Arabidopsis</i> to cold
1:32	Maysan Nashashibi	Manipulating plant functional traits to control <i>Senecio aquaticus</i> in wet grasslands
1:35-2:25	Poster discussion breakout session	

2:25 -2:40: 15 Minute break

2:40-4:45: Block 4, Masters Thesis Presentation Session 2

Talks will be 15 minutes long, with 5 minutes allotted for questions

2:40	Brief introduction	
2:45	Maria del Pilar Herrera Egoavil	The natural variation of recombination rates in fission yeast
3:05	Nina Bogdanovic	Present and future little bustard post-breeding habitat suitability in Iberia: conservation implications
3:25	Dörte Neumeister	Using ddRADseq to study incipient speciation in a non-model organism
3:45	Andrea Goss	Island relationships: the population genetics of the charismatic lichen, <i>Sticta canariensis</i>
4:05	Ingo Müller	Evolutionary dynamics of chromosomal inversions in recently, rapidly, radiating <i>Lonchura</i> finches
4:25	Alexandra Reutter	<i>Araripesuchus</i> (Nostosuchia) remains from the Cretaceous of Morocco

4:45-4:50: Voting break

4:50-5:00: Closing remarks and Awards
