

7th EES Conference

October 8th and 9th 2013

Ludwig-Maximilians Universität München

Biozentrum, **Kleiner Hörsaal** (room B.01.019)

Plannegg-Martinsried

PROGRAM

Tuesday October 8th

9:45 **Opening words**
Professor Dr. John Parsch

EES PhD talks

10:00 **Meike Wittmann**
Stochastic models for the ecology and population genetics of introduced species

10:30 **Ricardo Wilches**
Dissecting X chromosome contribution to cold resistance variation in *Drosophila melanogaster*

11:00 **Fernanda Antunes Carvalho**
Biogeography, systematic, and cyber-monograph of the papaya family (*Caricaceae*)

11:30 **Poster presentations**
Why to look at posters? 3 semester EES students (room B.01.019)

12:00 **Lunch** Foyer near room C.00.013

13:00 **Poster presentations** (C.00.013)

14:00 **Keynote talk**
Professor Dr. Michael Hochberg
Institut des Sciences de l'Evolution, CNRS, Université Montpellier II, France
Cancer as an ecological and evolutionary process

15:15 **Poster session and meet Professor Dr. Michael Hochberg,**
Coffee break (room C.00.013)

15:30 **Faculty meeting** in room B.01.015

Wednesday October 9th

EES Master talks

9:30 **Nedim Tüzün**
Effects of morphological traits on aggression in field crickets.

9:45 **Gökçe Ayan**
Identifying Species and Hybrids of *Daphnia longispina* Species Complex with SNP Genotyping

- 10:00 **Juan Cubillos Moreno**
Influence of the North Atlantic inflow on the macrozooplankton and ichthyoplankton of the northern North Sea
- 10:15 **Jennifer Diertel**
Orchids on their way to speciation? The *Epipactis helleborine* group
- 10:30 **Coffee break** (in front of room B.01.019)
- 11:00 **Federico Castro Monzón**
The effect of negative selection on demographic estimations
- 11:15 **Eliza Argyridou**
The effect of X-linkage on ovary-specific gene expression in *Drosophila melanogaster*
- 11:30 **Adun Samanthini**
Osteology and Phylogenetic Position of *Siamotyrannus isanensis* (Dinosauria; Theropoda) from the Lower Cretaceous of Thailand
- 11:45 **Andrea Gomez-Chamorro**
Prevalence and Seasonality of *Anaplasma phagocytophilum* in Questing *Ixodes ricinus* Ticks in Southern Germany: A Five-year follow-up Study
- 12:00 **Florian Ruland**
The Role of Vision in Personal Mate Quality Assessment and Social Attraction in CantonS *Drosophila melanogaster*.
- 12:15 **Lunch** Foyer near room C.00.013
- 13:15 **Amanda Navas**
Overwintering and crowding strategies: Determining the important life history characteristics for competition success of a *Daphnia* hybrid
- 13:30 **Felicitas Buchberger**
Analysis of predator mediated changes in gene expression in Triops- and fish-induced *Daphnia magna* - A qPCR study.
- 13:45 **Aleksandre Gogaladze**
Effects of nitrogen enrichment in a phosphorus limited lake ecosystem: mesotrophic lake Thalersee
- 14:00 **Eleftherios Bitzilekis**
Impact of atmospheric nitrogen supply on the zooplankton community of a phosphorus limited mesotrophic lake ecosystem - A Mesocosm Experiment –
- 14:15 **Coffee break** (in front of room B.01.019)
- 14:45 **Sara Beatriz Ocasio Ortiz**
Behavioral response of black redstart (*Phoenicurus ochruros*) mating pairs and male hormonal reaction towards a territorial intrusion
- 15:00 **Melany Villate**
Undersampled coastal fish habitats in the wadden sea: comparisons with established monitoring programmes
- 15:15 **Harriet Windley**
Female aggression: behavioural responses of breeding pairs of black redstarts (*Phoenicurus ochrurus*) to simulated female territorial intrusions.
- 15:30 **Prize committee meeting** (room B.01.015)
- 16:00 **Prize award and Graduation ceremony**
